

# Yakub Azimov

## Note from myself

I am a young self-disciplined and motivated athlete who loves to think out of the box and solve problems. I have a strong passion for sport, food and good humour; love putting a smile on other people's faces and playing with my siblings. I am excited about the future and hopeful that my interests, unquenchable curiosity and hard work will serve as a stepping stones to success in various fields including performing arts. The desire for knowledge and the opportunity to be surrounded by like-minded peers are the basis of my motivation to pursue further education. I will aim to reach my potential in sports and excel in subjects such as maths or space science. But my ultimate goal is to become an Olympian.

## From my parents

Our son Yakub is a compassionate, multilingual, academically advanced child. Yakub can effortlessly adapt to any situation, he is a health enthusiast (loves gastronomy) and is a sports nut. He has a natural aptitude for sports as well as knowledge. Yakub strives to be given the opportunity to achieve the highest possible standards in everything he does and loves a good challenge. We hope that the right school will offer him a chance to expand his abilities further.
